“Don’t be such a pussy!”

pussy (noun) -
1. a cat, especially a kitten
2. the vulva
3. slang for sexual intercourse

What were you trying to say?
Don’t be such a wimp!
  baby!
  weakling!

Think about the power your words can carry.

When using a female body part as an insult, you are sending the message that being a girl or feminine is bad. This suggests that women have less value than men. Think about what you do when you don’t value something. When women aren’t valued, they can be mistreated and abused.
